Acting Chief, FDB

US Publications Sent to USSR

1. This Branch in its recent contacts has noted that large quantities of United States Publications are being sent to the USSR through the International Exchange Service, which is under the direction of the Smithsonian Institution. A list was therefore, compiled by us of the addressees in the USSR for this material and the names of US organizations sending this material. Two copies of this list are forwarded herewith as Enclosure A.

2. The names of some 400 addressees comprising this list were taken directly from the packages for a two month period, inasmuch as the Exchange Service maintains no register. Since exchange materials from the USSR are supposed to be forwarded directly to the organizations in the United States, it was not possible to estimate the volume of material received through this service. However, it is believed that some exchange material is received by US organizations.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, FDB

FROM : Assistant Director for Operations

SUBJECT: Foreign Documents Exploitation During 1947-48

DATE: 24 February 1949

1. I want to congratulate you on the fine effort contained in "Foreign Documents Exploitation 1947 and 1948". It should be disseminated to all offices within CIA but, for several reasons such as costs, should not have further distribution.

2. In order to provide substantiation for the fulfillment of FDB T/O it is requested that the report go one step further and include graphs showing various stages of backlog such as arrears in answering CD's and coverage of foreign press.
